

## Male Connector Bored Through Bore-through Push-in Fitting

- Tubing is able to go completely through the body of the fitting.
- Ideal for installing on tanks, sinks and drums since tubing goes through the fitting with a complete seal.
- The location/position of the tubing can be adjusted and set by pressing the release ring of the fitting.
- Installation is easier than using compression fittings.

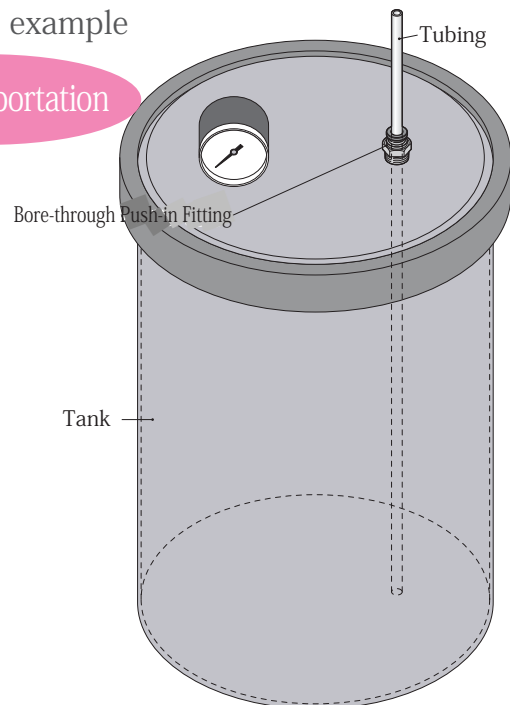

Model) **PC 1/2-N3U-TEN**  
Bore-through

### ■ Structure

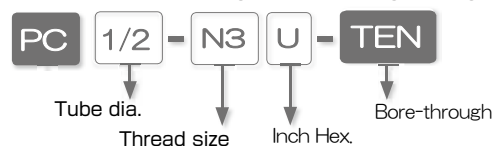

### ■ Application example

Fluid transportation

### ■ Model Designation (Example) - Straight Bore-through fitting

Tube dia. - example: 1/4", 3/8", 1/2", 10mm, 12mm

Thread size - example: N2 (1/4NPT), N3 (3/8NPT), 02 (R1/4), 03 (R3/8)
